Time series data of missing related reports in England and Wales

Table A1: Number of missing related calls recorded by UK police forces, 2015/21
Table A2: Number of missing incidents recorded by UK police forces, 2015/21
Table A3: Number of missing individuals recorded by UK police forces, 2015/21

High level missing figures for 2020/21

Table B1: Number of missing related calls recorded by UK police forces in 2020/21
Table B2: Number of missing incidents and individuals recorded by UK police forces in 2020/21

Demographic breakdown for 2020/21

Table C1: Gender distribution of missing incidents by UK police forces, 2020/21
Table C2: Age distribution of missing incidents by UK police forces, 2020/21
Table C3: Ethnicity distribution of missing incidents by police forces, 2020/21
Table C4: Age and gender distribution of missing incidents in the UK, 2020/21

Assessment of missing incidents 2020/21

Table D1: Distribution of incidents by risk level and UK police forces, 2020/21
Table D2: Distribution of incidents by age, gender and risk levels, 2020/21
Table D3: Distribution of incidents by vulnerability, gender and police force, 2020/21
Table D4: Distribution of the number of incidents by age, gender and vulnerability, 2020/21
Table D5: Distribution of incidents with mental health by age, gender and police force, 2020/21

Resolution of missing incidents for 2020/21

Table E1: Missing incidents resulting in harm, 2020/21
Table E2: Nature of harm suffered whilst missing, 2020/21
Table E3: Number of fatal outcomes, 2016/21
Table E4: Duration of missing incidents, 2020/21
Table E5: Who finds missing people (incidents), 2020/21
Table E6: Distribution of long term missing individuals by police forces, 2020/21

Incidents involving those in care 2020/21

Table F1: Missing from care, 2020/21

Unidentified cases

Table G1: Unidentified cases notified to UK Missing Persons Unit, 2020/021
Table G2: Outstanding Unidentified Cases

Systems in operation 2020/21

Table H1: Command and Control and Missing Person Systems used by UK police forces in 2020/21

Definitions

Child = anyone under the age of 18 (at the time they went missing)

Adult = anyone aged 18 and over (at the time they went missing)

Missing = "Anyone whose whereabouts cannot be established and where the circumstances are out of character or the context suggests the person may be subject of crime or at risk of harm to themselves or another"

Absent = "A person not at a place where they are expected or required to be and there is no apparent risk"

Calls = Telephone calls to the police relating to a missing or absent person, recorded on a Command and Control system. Multiple calls may relate to different incidents/individuals

Incidents = A single episode of someone being reported as missing or absent, which is recorded on a missing persons system. Multiple incidents can be attributable to a single individual, and some incidents may involve more than one individual

Table A1: Number of missing related calls recorded by UK police forces, 2015/21

Calls relates to the closing code giving to a missing related call. If the report is established as a missing person case, it will have the appropriate closing code.
1. Force unable to provide this data.
2. Nottinghamshire police have reported an error in figures provided for 2018/2019 and 2019/2020. The correct figures are shown above but previous reports will still show incorrect data for these years.
3. PSNI data lists missing person reports.
x = Not available.

Scotland [2]	x	x	14,698	13,572	10,434	7,050	**-3,384**	**-32.4**	x	x	x	8,268	5,993	7,324	**1,331**	**18.2**

1. Reported incidents recorded with an unknown age (i.e Child or Adult) have been excluded in 2016/17, 2017/18, 2018/19 and 2019/20: they were 955, 1030, 1171 and 921, repectively.
2.Total number of incidents adjusted or estimated for either 2017/18 or 2018/19 or 2019/20.
3. The incident data from Bedfordshire Police for 2016/17 is drawn from a different system, making the 2016/17 data incomparable with the 2015/16 data.
4. Dorset Police was unable to provide data for 2015/16 due to a change in ICT system part way through the year.
5. The adult incident data from Lincolnshire Police only includes data for Q2-Q4 (July 2016-March 2017) due to a change in recording practices. The data is therefore not directly comparable with the data for 2015/16.
6. PSNI refer to missing person reports.
7. Data unavailable.
x = Not available.

1. Durham unable to provide total number of individuals and breakdown by child and adult.
2. Forces unable to provide this data.
3. The adult individual data from Lincolnshire Police only includes data for Q2-Q4 (July 2016-March 2017) due to a change in recording practices.
4. The children data for North Wales was retrospectively revised downwards in 2018/19.
5. PSNI provide figures for missing person reports, not individuals, and so the data is not included here.

x = Not available

Table D1: Distribution of incidents by risk level and UK police forces, 2020/21

	Numbers						Percentages [1]					Percentages [2]			
	High risk	Medium risk	Low risk	Not graded	Total excluding no apparent risk	Total	High risk	Medium risk	Low risk	Not graded	Total	High risk	Medium risk	Low risk	Total
Northern Ireland [4]	x	x	x	x	x	**x**	**8.4**	**85.5**	**6.2**	**.**	**100**	**.**	**.**	**.**	**.**
Scotland [5]	2,153	10,302	1,919	0	14,374	**14,374**	**15.0**	**71.7**	**13.4**	**0.0**	**100**	**.**	**.**	**.**	**.**

1. Percentages based on all risk incidents including no apparent risk.
2. Percentages based on all risk incidents excluding no apparent risk.
3. Force only able to provide partial data or none.
4. PSNI refer to their records as missing person reports. These are deemed to be similar but may not be directly comparable to the incidents created on the police recording systems in England and Wales. Their annual report did not provide figures, just their percentage breakdown.
5. Police Scotland data relates to the number of missing person investigations recorded on their bespoke system. These are deemed to be similar but may not be directly comparable to the incidents created on the police recording systems in England and Wales.

. = Not applicable.
x = Not available.

1. The data is taken from closure reports added to missing incidents. It therefore excludes any incidents not resolved by 31st March 2021, and is dependent on the information disclosed when the person returns. As a result, it may also underrepresent the harm suffered whilst individuals are missing as they may not disclose this to officers immediately on their return.
2. The total number of times harm outcomes were endorsed on closure reports for missing incidents. It may be possible to endorse more than one harm outcome, and therefore does not equate to the total number of incidents where the person suffered some form of harm.
3. PSNI and Scotland were unable to provide this data.
4. Forces unable to provide this data.
4. This is the proportion of closure reports where this harm was endorsed as a percentage of all occasions when a harm outcome of any kind was endorsed, i.e. we have excluded harm unspecified from the base.
. = Not applicable.
x = Not available.

Table E4: Duration of missing incidents, 2020/21 [1]

1. This data reflects the time lapsed from when the person was reported missing to the police to when the person was found. It does not include unresolved incidents.
2. Force was unable to provide this information.
3. PSNI refer to their records as missing person reports. These are deemed to be similar but may not be directly comparable to those recorded in E&W.

PSNI - Data only available for 7,610 of the 8,912 missing incident reports. PSNI also collate duration of time missing into different time brackets.

. = Not applicable.

x = Not available.

1. For the purposes of this report, 'missing from care' refers to reports where an officer has endorsed the child/adult as being 'in care', or where the address the person is missing from is known to be a residential care unit (including psychiatric care). This may therefore include individuals in a range of care situations, including those living in children's homes, in foster care, those living with parents/guardians in family homes, in health placements and in care homes or nursing homes.
2. Data used in analysis: the ratio figures for England and Wales have been calculated excluding figures where both incidents and individual data has not been provided.
3. Force only able to provide partial data.
4. PSNI refer to their records as missing person reports. These are deemed to be similar but may not be directly comparable to the incidents created on the police recording systems in England and Wales. Not in care numbers for incidents and individuals estimated.
5. Police Scotland data relates to the number of missing person investigations recorded. For Adults, in care figures reported are those reported missing from Adult Care Home, for children, in care figures include

x = Not available.

1. Cases found in England, Northern Ireland, Scotland and Wales, including those notified and dealt with by British Transport Police.
2. This only includes cases notified to the UK Missing Persons Unit where there is believed to be a UK connection (e.g. due to clothing or money found), and have therefore been entered on to the UK MPU database.
